

STARCHEAP

Step into the future of space logistics with **StarCheap** — a next-generation orbital shuttle designed to meet the demands of modern space missions. Whether you're transporting crew, delivering cargo, or looking to remove assets in orbit, StarCheap delivers and caters to you, **all in one go!**

SPACE JUST GOT A LOT CLOSER.

Human Transport

- Accommodates up to 3 passengers
- Equipped with life support and autonomous flight capacities for short-duration missions

Cargo Delivery

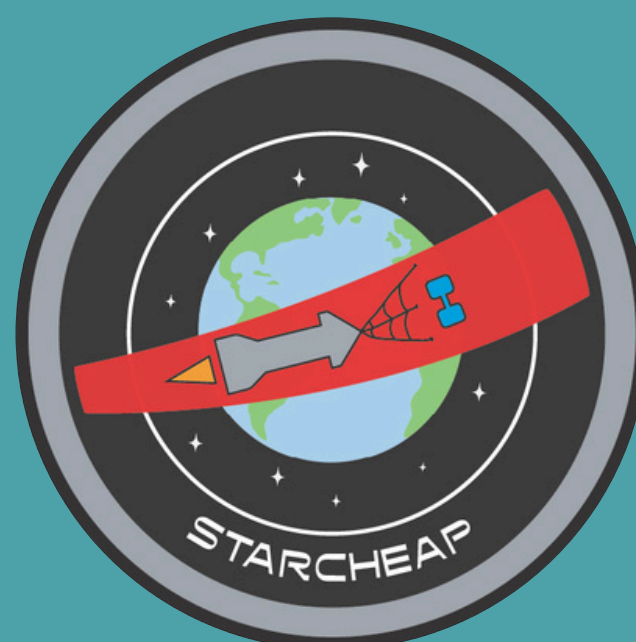

- Flexible payload configurations
- Optimized mass-to-orbit performance
- Cost-effective transport

Docking Ready

- Fully compatible with Astroikos Space Station
- Autonomous docking capabilities for crew transfer or cargo offloading

Debris Capture & Servicing

- Advanced capture systems for secure debris retrieval & disposal
- Support for orbital cleanup operations

**RELIABLE.
ADAPTABLE.
ORBITAL.**
